

LONDON RJ SPRAY PAINT

DESCRIPTION

An exceptionally hi-gloss and durable quick drying paint. Application is quick and easy. It is ideal to use as protective coating and for decorative purposes. RJ Spray paint is suitable for interior and exterior. It can be used on wood, metal and other surfaces. It comes in wide range of new and fashionable colors.

DIRECTION OF USE

SURFACE CLEANING. Surface to be sprayed must be clean, dry and free of grease, rust, dirt or other surface contamination. Do not spray on hot surfaces.

BEFORE SPRAYING. Shake can for at least two minutes after hearing all bearing rattling freely to ensure contents are well mixed.

SPRAYING. Hold can upright about 25-30cm from the surface, spray in short back and forth dusting strokes. Keep can in horizontal motion so that paint will be deposited evenly. Do not spray too close to surface as bubbles and runs will rest. Shake regularly during use.

OPTIMUM RESULT. Can and content should be at room temperature 25°C. Two or three thin coats several minutes apart will provide optimum results than one heavy coat.

SPRAYHEAD CLOGS. If spray stops or is irregular, remove spray head, clean spray hole with fine wire and thinner and replace firmly.

COVERAGE. Contents of this can will cover ± 1.8 sq. m.

AFTER USE. Turn can upside down and press valve for 3-5 seconds. This cleans the valve's mechanism so they can be reuse later.

LIMITED WARRANTY. This can is guaranteed to spray. Since shelter cannot control application, seller makes no warranty or responsibility other than replacement of the product.
