

BRONCO PREMIUM ACRYLON PAINT ROLLER

Professional-Grade Paint Roller for Smooth and Efficient Application

LABEL COPY (FINAL):

Always clean the roller and tray immediately after use to prevent paint from drying and hardening; during breaks, ensure that the roller does not dry out. After painting, remove the roller and rinse thoroughly under running water until all paint is removed. Allow the roller to dry completely before storing.

PRODUCT DESCRIPTION

Bronco Premium Acrylon Paint Roller is a premium, high performance, durable paint roller used to deliver smooth, even, and efficient coverage to different surfaces including concrete, drywall, wood and metal. It is made from high-quality woven synthetic fabric (high-density acrylic blend) that holds more paint and ensures a consistent release, limiting drips and streaks. The roller has a strong core and ergonomic handle for balanced control and long lifespan, making it suitable for professional painters and DIY users.

USES

Recommended for use with: Water-based paints (latex, acrylic, emulsion), Solvent-based coatings and primers; interior and exterior walls, ceilings, and large flat surfaces, concrete, wood, plaster, drywall, and masonry.

Recommended for: Exterior and interior painting; primers, topcoats, and sealer applications; Best for masonry, cement board, gypsum panels, and plywood; decorative and maintenance uses; smooth to semi-textured surfaces; residential, commercial, and industrial use.

ADVANTAGES

Excellent Paint Pickup & Release - Covers more surface area with fewer dips.

Smooth & Even Finish - Reduces roller marks and surface streaks. Reduces streaks and lint for professional results.

Durable Design & Construction - Superior core and fabric to withstand extended use. Resists matting and shedding even with frequent use.

High Capacity Absorption - Holds more paint per dip, decreasing reloads..

Ergonomic Design - Light handle for comfort and easy maneuverability.

Works with Most Paint Types - Compatible with water and solvent-based coatings.

Compatible with latex, acrylic, enamel and alkyd coatings.

Easy to Clean & Reuse - Washable and designed for multiple painting applications.

HOW TO USE

Ensure that the surface is clean, dry, and free from dust, oil, and loose paint.

Prepare the Roller by giving a new roller sleeve a gentle water rinse (for water-based) or thinner (for solvent-based) and spinning or blotting to remove any excess moisture.

Roll the roller evenly into the tray and roll back and forth to load it with even amounts of paint.

Apply the paint by painting in a "W" or "M" motion to distribute the paint, then fill in the gaps with smooth even strokes. Avoid pressing too hard to prevent splattering.

As Needed Reapply. Reload paint as needed and work in sections for consistent coverage. Allow paint to dry before applying additional coats.

CARE & MAINTENANCE

After Use (Water-Based Paints):

- Remove excess paint.
- Rinse the roller sleeve immediately with clean water until no paint residue remains.
- Spin or shake off excess water and air dry vertically before storage.

After Use (Solvent-Based Paints):

- Remove excess paint.
- Clean with appropriate paint thinner.
- Clean with clean water and spin or shake out excess water
- Dry thoroughly before storage.

Storage:

- Hang vertically to air dry completely before storage.
- Store in a cool, dry place away from direct sunlight or heat.

AVAILABLE IN: 9", 7", 4", 9" Single Refill, 7" Single Refill, 4" Refill pack of 5
